Cover

A farewell photo of the HO_n3 Slim Gauge Guild layout in Pasadena, California. The guild has lost its lease. Best of luck to the guild; such an enthusiastic group will undoubtedly create an even finer layout in the future. Number 268 built by Jim Williams runs across a trestle for the last time in the RGS section of the layout. The rock castings and the Aspen trees complete the scene. If you are inspired to try a mountain layout check out the rock-casting article by Al Armitage in this issue.
