Models by Dick Relph
- 98 **Book and Video Reviews**
- 105 **Riptrack**

COVER

Bob Poli's 1:20.3 scale West Side Lumber Co. Shay #7 waiting to be serviced on the diorama he describes on page 26. Bob scratch-built this locomotive. The superstructure was built-up from styrene with a cast resin boiler and frame. The trucks, and much-modified cylinders, are from Bachmann. All the detail parts including the air pump, water pump, generator, headlights and complete cab interior were scratch-built.

This magazine is printed on recycled paper with a minimum of 10 percent post-consumer content.
