- Buyer's guide to structures **page 88**
- Enhance your railway with miniature maple trees **page 45**
- Prototypical operation on our project railroad **page 64**
- A highly-detailed indoor railroad **page 98**

**RIGHT:** The second trick is just about over and the Alco's crew has pulled their engine onto the switching lead, waiting for any last-minute orders. This is Tower AB, which controlled switching movements over both Milwaukee Road and Chicago & Northwestern trackage leading onto Jones Island. See page 98 for the full story.
