- Railroad telephones 52
- Working glad hands 68
- Structure planning and placement 72
- Repairing old structures 19

RIGHT: Looking like an advertisement for the Santa Fe Railroad, a colorful consist of reefers enters a low grade while a pair of highly polished E9s appear around a distant corner on Mark Edwards' Hurricane Route in Florida. Not to be outdone, colorful succulents line up in front, notably white-thorned pincushion cactus, firesticks, and grafted cactus. See page 54.
